

# Pet feeding schedule

Exact meals, portions, fresh water, treats and multi-pet boundaries.

**MEALS**

|                                                   |
|---------------------------------------------------|
| <b>Pet names</b>                                  |
| <hr/>                                             |
| <b>Morning meal - time, food and exact amount</b> |
| <hr/>                                             |
| <hr/>                                             |
| <b>Midday meal or snack - time and amount</b>     |
| <hr/>                                             |
| <hr/>                                             |
| <b>Evening meal - time, food and exact amount</b> |
| <hr/>                                             |
| <hr/>                                             |

**WATER, TREATS AND BOUNDARIES**

|                                                  |
|--------------------------------------------------|
| <b>Fresh-water routine and bowl locations</b>    |
| <hr/>                                            |
| <hr/>                                            |
| <b>Allowed treats, limits and foods to avoid</b> |
| <hr/>                                            |
| <hr/>                                            |
| <b>Separate feeding and bowl rules</b>           |
| <hr/>                                            |
| <hr/>                                            |
| <b>Normal appetite and when to call</b>          |
| <hr/>                                            |
| <hr/>                                            |
