

Pet sitter instructions

One clear handover for pets, routines, care, supplies and contacts.

PETS AND EVERYDAY CARE

Pet names, species and useful description

Rowan, tan lurcher; Pip, black-and-white cat.

Feeding and fresh-water routine

08:00 and 18:00. Labelled portions; feed Pip in the utility room. Refresh both water bowls.

Daily routine, play, toilet or litter

Rowan: 30-minute lead walk after breakfast. Pip: litter tray checked morning and evening.

Sleep, rooms and household boundaries

Both settle downstairs. Keep the utility-room window closed.

CARE AND SAFETY

Current medication or None

None.

Behaviour, handling and familiar settling cues

Pip may hide when the doorbell rings; give her space.

Escape risks and anything the sitter must not do

Latch the side gate. Rowan stays on lead.

Food, lead, litter, carrier and supply locations

Labelled cupboard by the sink; lead on hall hook; carrier in utility room.

CONTACTS AND RETURN

Owner contact and availability

Alex - checked mobile number; call for any unexpected change.

Agreed local backup

Sam - lives locally and has agreed to help.

Regular vet and out-of-hours route

Usual practice - checked number; voicemail gives current out-of-hours service.

Updates, final checks and return notes

Evening update. Final meal, water, litter and gate check before leaving.

IMPORTANT

Use current owner and veterinary instructions. Keep alarm codes, passwords and payment details in a separate trusted channel.
